

Speaker Name: Peggy Moore

Speaker Title: CEO

Speaker Bio:

Peggy Moore is the majority owner and Chief Executive Officer of Love's Oven, LLC, a medical and retail marijuana-infused products manufacturer located in Denver, CO with distribution to 400+ locations throughout the state. She also serves as the Board Chair for the Colorado Cannabis Manufacturers Association and participates in various State and Local industry workgroups.

Love's Oven was founded in 2009 and Peggy joined the team as an investor/advisor in 2011. In May of 2014, Peggy retired after 33 years from an illustrious career in the highly regulated health insurance industry with United Health Group where she held two primary positions - one as Director of Operations where she led post-merger/acquisition operational integration projects for the past 15 years and also managed claim and customer service operations for the first 17 years of her career.

One accomplishment in the cannabis industry that Peggy is most proud of is being one of the first manufacturers in the industry to build the Love's Oven infused products manufacturing facility in Colorado to full FDA compliance ahead of Federal regulation.

Press Abstract:

Love's Oven is a pioneer in the regulated cannabis industry. They were awarded the 4th manufacturer of infused products license for medical infused products in 2009 and in 2013 again were awarded the 4th manufacturer of infused products license for adult use/recreational products by the state of Colorado (and the entire U.S. for that matter). In 2009, Love's has grown to be one of the most recognized cannabis brands in Colorado. With the 2014 legalization of adult-use/recreational cannabis in Colorado, Love's Oven sales skyrocketed to over a million dollars that first year. Since 2014 Love's has ventured out of the oven to include chocolates, beverages, and concentrates in addition to cannabutter infused cookies and brownies.

Love's Oven is headquartered in Denver, Colorado with a brand licensing partnership in Florida with Trulieve. As well as a budding consulting and brand licensing partnership in Maryland with Herbiculture.
