

LEARN. CONNECT. GROW.

Joining a PMCA committee is a great way to contribute your enthusiasm, knowledge and talents to the association. There are lots of opportunities to become involved.

The **Education & Learning Committee** seeks to develop and deliver high-value learning experiences in quality and cost to the confectionery and related industries. These learning experiences cover the science within the topic as well as provide practical, hands-on opportunities to put scientific theory in action.

The **Membership Committee's** aims to create and fulfill a long-term growth strategy for PMCA to develop awareness and membership throughout the global confectionery and food industries. goals include retaining and expanding membership, keeping membership dues affordable to the entire industry and continuing to find ways to bring value to PMCA members.

The **Production Conference Program Committee** works throughout the year to produce a high-quality annual production conference for the industry. It acquires speakers, chooses presentation topics for the program and coordinates details to bring this educational forum to life.

The **Student Connections Committee** aims to strengthen the future of the confectionery industry by attracting, developing and retaining the next generation of leaders through education, mentorship, collaboration and meaningful industry engagement.

The **Western Region Committee** was formed to assist with the expansion of association activities and increased visibility of the PMCA brand and offerings to confectionery and snack companies in the area typically referred to as the Western region of the USA.
